WORK EXPERIENCE

Web Developer | PT Kaldu Sari Nabati | May 2023 - Sep 2026

Bandung, West Java

• Developed and maintained internal web applications through UI implementation, API consumption, application updates, and ongoing maintenance.

• Developed an internal ERP system and Sales Monitoring Dashboard.

• Built News Portal Center, R&D, SSO (Single Sign-On), and Web Portal applications.

• Implemented dynamic URL routing and developed the reusable Pink Lava UI component library; contributed to POS development as a fullstack developer.

Tech Stack: Laravel, Golang, CodeIgniter, Next.js, React.js, Svelte.js, Node.js, React Native

Web Developer | PT Layanan Cerdas Indonesia | Jun 2022 - Mar 2023

Bandung, West Java

• Developed and maintained web applications, including UI slicing and API consumption.

• Developed Toyota Employee Cooperative and POS Cafe Toyota applications.

• Developed an API supporting KAI trip functionality.

• Redesigned the Tripisia Admin page and added new features to the Sportstrip application.

Tech Stack: Laravel, CodeIgniter, Next.js, React.js, Vue.js, Angular, Flutter, NestJS

Fullstack Developer | PT Netindo Mediatama Perkasa | Dec 2018 - Jun 2022

Cimahi, West Java

• Designed applications from database design through testing and resolved technical and non-technical issues.

• Maintained N-POS and trained cashiers to use the N-POS back office.

• Modernized the N-POS back office and migrated its database from SQL Server to PostgreSQL.

• Built fintech, news portal, mosque management, company profile, and e-commerce web applications.

• Built mobile applications for fintech, e-commerce, monitoring, price checking, franchise, and N-PAY use cases.

Tech Stack: Golang, Laravel, CodeIgniter, Vue.js, React.js, Next.js, React Native, Angular, Java, NestJS

Fullstack Developer | PT Thaibah (Remote) | Feb 2018 - Dec 2018

Cimahi, West Java

• Developed an MLM web application and maintained its Android application.

• Built and deployed business applications to shared hosting.

Tech Stack: Laravel, Flutter, CodeIgniter, Vue.js

Fullstack Developer | PT Aromanis Simping (Remote) | Dec 2017 - Feb 2018

Cimahi, West Java

• Developed and maintained an inventory management application.

• Deployed the application to shared hosting and performed hardware troubleshooting.

Tech Stack: Laravel, CodeIgniter, React.js

SELECTED PROJECTS

• Internal ERP & Sales Monitoring Dashboard - PT Kaldu Sari Nabati

• SSO, Web Portal, News Portal Center, R&D applications & Pink Lava UI Library - PT Kaldu Sari Nabati

• N-POS Back Office Modernization & Database Migration - PT Netindo Mediatama Perkasa

• Toyota Employee Cooperative & POS Cafe Toyota - PT Layanan Cerdas Indonesia

• Mondelez Inventory (Freelance) - Developed an inventory management application with AI-powered image search and integrated frontend, backend APIs, and a Python AI service.

Tech Stack (Mondelez Inventory): React (Vite), NestJS, Python (FastAPI), SigLIP, PostgreSQL

EDUCATION

Politeknik TEDC Bandung | Diploma IV, Engineering | 2015 - 2019
